

DENK News 11 / 2011 – EU finally approves Stevia

You are looking for a tasty, no-calorie and natural Stevia product?

As these are very important days for the Stevia industry, food and beverage manufacturers and consumers in Europe.

Join us and get to know our product **Sweetolife™**

Stevia will play an important role in addressing consumer interest in healthier diets and sustainable ingredients, as well as to help offset rising commodity costs for your company.

The EU regulation allowing the use of extracts of Stevia rebaudiana has finally been published in the Official Journal of the European Union. Effective December 2nd, it will be permitted to use steviol glycosides in food and beverages.

Contact us if you need an excellent quality and prompt available Stevia with high content of min. 97% Reb A!

Yours Denk Ingredients Team

PS.: Meet us at the FIE, Paris, booth 2H76!
